accorded this new Type 61 Cadillac renders us gratefully conscious, once more, that the Cadillac product possesses that precious and priceless thing-consiete public confidence.

The sheer beauty of the Type 61 explains one phase of the reception of the new Cadillac.

But the real reason lies far deeper, in its superb mechanism and its world-wide reputation for dependability.

The new Cadillac has been given a royal welcome because it is a Cadillac-and because the Cadillac is universally regarded as the standard of the world.
